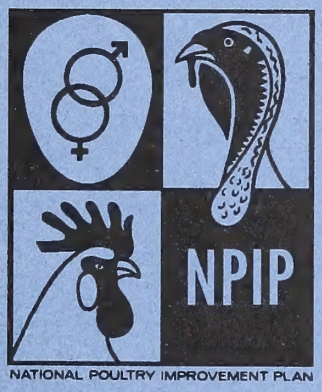
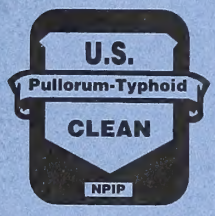
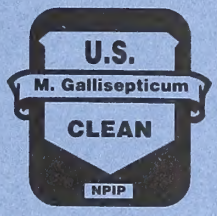
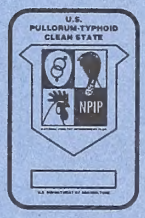
ACQUISITIONS AND SERIALS BRANCH









The U.S. Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA Office of Communications at (202) 720–2791.

To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington, DC 20250, or call (202) 720–7327 (voice) or (202) 720–1127 (TDD). USDA is an equal employment opportunity employer.

History and Management of the National Poultry Improvement Plan

The National Poultry Improvement Plan became operative July 1, 1935, and the National Turkey Improvement Plan was activated on September 25, 1943, with the approval of the Secretary of Agriculture. On December 3, 1971, the two Plans were combined under one title, "The National Poultry Improvement Plan," with separate provisions applicable to the different types of poultry.

The Plan operates through an appropriation from Congress to the U.S. Department of Agriculture (USDA) to be used in cooperation with the State authorities in the administration of regulations for the improvement of poultry, poultry products, and hatcheries. Authority for the administration of the Plan is now contained in the Department of Agriculture Organic Act of 1944, as amended (7 U.S.C. 429).

Provisions of the Plan are changed from time to time to conform with the development of the industry and with new information as it becomes available. These changes are based on recommendations made at the biennial national Plan conferences by official delegates representing participating breeders, hatcheries, and flock owners from all cooperating States. Current provisions of the Plan are contained in a publication entitled "The National Poultry Improvement Plan and Auxiliary Provisions." The publication (APHIS 91-55-031) is available from Official State Agencies or on request to the National Poultry Improvement Plan, USDA, Animal and Plant Health Inspection Service (APHIS), Veterinary Services, 1500 Klondike Road, Suite A–102, Conyers, GA 30207–5115.

Using This Publication

The hatcheries, dealers, and independent flocks listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. This list of participants is published for the purpose of developing greater efficiency in the operation of the Plan. Additional information regarding participants may be obtained by communicating with the Contact Representative of the Official State Agency of the respective State. The Contact Representative's name, address, and telephone number are given at the beginning of each State's listings in table 1.

This publication is revised each year because of frequent changes in participation and the need for inspectors, hatchery managers, dealers, and others to have up-to-date information. In addition to this listing, all Official State Agencies are notified of changes in participation that take place during the year.

The National Poultry Improvement Plan provisions, as contained in Title 9, Chapter I, Parts 145 and 147 of the Code of Federal Regulations, provide for recognition of different classes or types of fowl as follows:

Subpart B—Egg-Type Chickens,
Subpart C—Meat-Type Chickens,
Subpart D—Turkeys, and
Subpart E—Waterfowl, Exhibition Poultry, and Game Birds.

Participants handling egg- and meat-type chickens as well as those handling turkeys are listed in a separate publication (APHIS 91-55-029) in this series.

Approval Numbers

In table 1 of this publication, the numerals preceding the name of the State, together with those preceding the name of each participant, constitute the participant's approval number. For example, the approval number for the first hatchery listed under Alabama is 64–417. The number 64 represents the State of Alabama; 417 represents B & W Bobwhite Quail Hatchery, RR 1, Box 56, Chancellor 36316. These assigned numbers may be used by participants on shipping labels, certificates, invoices, and other documents for identification. The numbers may also be used as reference numbers for shipments to member States of the European Economic Community.

Participant's Name and Address

Three types of participants are listed in this publication: hatcheries, dealers, and independent flocks. For each State, the type of participant is given immediately above the first name in that category.

Hatching-Egg Capacity

Figures in this column refer to the hatching-egg capacity of hatcheries, according to manufacturer's rating, including setting and hatching trays. Letter symbols in this column refer to products that dealers handle, as follows: E, hatching eggs; C, chicks. When an independent flock is listed, this column is left blank.

Products and Classifications

All products handled by participants listed in this publication meet the specific requirements for a "U.S. Pullorum–Typhoid Clean" classification. The combined letter and numeral symbols shown in the fourth column identify the particular breed, strain, or trade name of the participant's products (see tables 2 and 3 in the appendix). Additional classifications for which these products qualify are identified in column five by MG, "U.S. *M. Gallisepticum* Clean"; and App., "U.S. *Approved*." Those classified as approved were found to conform with the critieria for the breed and strain represented.

Laboratories Approved To Test for the Following Diseases:

P *Pullorum-Typhoid*
SM *Sanitation Monitored*
MG *Mycoplasma gallisepticum*
MS *Mycoplasma synoviae*
D *Diagnostic work*
MM *Mycoplasma meleagridis*

Explanation for Tables

Participants listed in table 1 represent hatcheries, dealers, or independent flocks handling egg-type chickens. Participants listed in table 2 handle meat-type chickens; those in table 3 handle turkeys. The products they handle have a letter symbol as follows:

a—White Leghorn
b—Rhode Island Red
c—Barred Plymouth Rock
d—White Plymouth Rock
e—New Hampshire
h—Cornish
n—Game
r—Other breeds and varieties
w—Bantams
x—Ducks
y—Geese
z—Other birds (wild or semiwild type)

These letter symbols, together with accompanying numerals representing specific breed, strain, trade names, or other specific type of birds, are fully explained in tables 2 and 3.
